

Number of jobs in the tourism sector

Definition

The total number of persons employed in tourism-related industries during a specified reference period. Tourism-related industries include activities that directly serve visitors, such as accommodation, food and beverage services, passenger transport, travel agencies, tour operators, and cultural, sports, and recreational services.

Computation Method

Count of all employed persons working in establishments classified under tourism-related industries, based on national employment or labor force data, in accordance with the Tourism Satellite Account (TSA) framework and international labor standards
